Roland JWX-10

Jewellery Milling Machine & Engraver

Jewella JWX-10 \$11,795.00 CAD

Roland's new JWX-10 was designed from the ground up as a production jewellery wax model milling machine for the jewellery manufacturer or custom retailer. The JWX-10 is compatible with all jewellery CAD/CAM applications including Gemvision Matrix, Artcam Jewelsmith, Type3 3Design, JewelCAD, JewelSpace, and Rhino Techgems. This compact, fully enclosed, 4-axis machine includes a high speed 20,000 rpm variable speed spindle and specially designed holding fixtures for non-proprietary, off-the-shelf ring and flat jewellery wax stock. Complete system has everything needed to get started including, 4 axis CAM software, user manuals, tools, wax and comprehensive jewellery milling tutorials.

**Two light sources and Gem Clip included.
Japanese Optics**

Hearts and Arrows Loupe

\$39.95

This loupe will show whether a Round Brilliant Diamond is perfectly cut. A symmetrical pattern of eight arrows will be seen when viewing a perfectly proportioned stone from the top - a symmetrical pattern of eight hearts will be seen when viewing the bottom. If the stone is not perfectly cut, the patterns will not be clear and symmetrical.
